EXPLORING CHALLENGES RELATED TO INTERNATIONAL EXCHANGE AND INTERNSHIPS IN DESIGN WITH UNIVERSITIES AND INDUSTRY PARTNERS

In keeping with the UDA mission of celebrating global awareness and providing both educational and professional opportunities in visual communication design, we offer our first webinar. This conversation will be the first of many as we continue to develop our organizational identity. We look forward to your contribution to this experience.

Topics will include:

- Exploring design to exchange ideas
- Creating a pedagogical foundation for meaningful educational experiences (for international students)
- Deepening the designer's personal library of visual language

A UDA email notice will be distributed to the UDA members by Monday, October 15. All UDA members and invited guests are welcome to join this event. 2019 schedule will be announced in January.
