Design description

"The world is so big, what do you use to see" is a sentence extracted from the speech words, which is in sharp contrast to the "The world is so big, I want to see" the Internet celebrity sentence, and "Why do you see it" It is easier to cause us to think. Thinking about "Poetry and the distance" needs to be pursued with our own strength. GF Young students are in the stage of learning and struggling. At this stage, striving to improve their own strength is the basis for seeing the world.
